Vinyl Remover VR15-170

Description

Working width 850mm
Working width 1430mm
Working width 1700mm

The Vinyl Remover is capable of stripping away any film from your cutting plotter or print'n cut. It is designed for easy mounting on your worktable with just 6 screws, or to be mounted on your flatbed laminator and you can even use it on a portable table stand.

The working width is up to 1700mm.

It's operated with a single hand driven crank and gets the job done in no time. You can even pause in the middle of a job to attend other business and finish the job later.

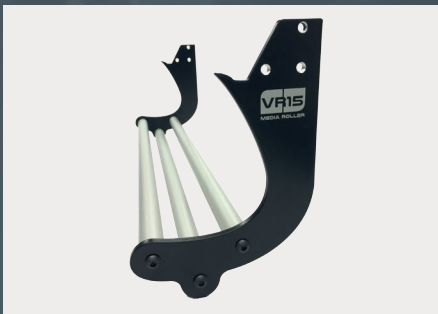

Accessories:
