AUTOMATION FOR SIGN MAKERS

MIURA WALLPAPER
AUTOMATIC XY CUTTER
FOR WALLPAPER

Highly precise cutting machine for X and Y trimming with automatic vertical cutting correction and rewinding system. Suitable for wallpaper and many other flexible supports.

> Combined horizontal and vertical cutting for the fastest finish of your rolls

> Trims and **directly rewinds** wallpaper's sheets on rolls (up to 3 rolls, also of different sizes). Possibility to work in addition as roll to sheets

> Maximum precision thanks to the **EDGE CONTROL** that reads the line longitudinally printed along the entire length of the roll: perfect joints of pattern and designs on the wall

> 4 operating modes: automatic by crop marks (roll to rolls), automatic by crop marks (roll to sheets), by set length and manual

> Even more intuitive set up parameters thanks to the new designed user-friendly software (LCD touch screen display). New **MUTING** function that avoids possible misreading of hidden marks
