

JT 8300 WM - RT Dot Floors

The Floor is yours!

Smooth to apply and directly printable! JT 8300 Dot Floors brings the power of Dots to floor graphic applications, and does not require a laminate for anti-slip properties.

This single-layer film allows you to create cost effective and impactful floor graphics for short-term decorations in commercial or exhibition environments. Excellent printability and a built-in anti-slip surface make it the simple choice for a wide range of floor decorations - avoiding the extra cost of purchasing both a print medium and a laminate.

A dotted adhesive ensures easy and fast application, so that not only experienced applicators but also employees at point-of-sale can apply and remove the film with great results.

An outstanding choice for short term floor advertising up to one month.

Advantages

- Cost-effective single layer solution
- Excellent printability on all main platforms
- Easy to apply and remove thanks to dotted adhesive
- Anti-slip properties, even after printing
- No additional application tools required

JT 8300 WM - RT Dot Floors
